

Solving Cartpole Using Reinforcement
Learning and Policy Gradients
Machine Learning Engineer Nanodegree
Capstone Project

Richard Decal

May 17, 2017

1 Definition

words

Project Overview

Problem Statement

Metrics

2 Analysis

Data Exploration

Exploratory Visualization

Algorithms and Techniques

Benchmark

3 Methodology

Data Preprocessing

Implementation

Refinement

4 Results

Model Evaluation and Validation

Justification

5 Conclusion

Free-Form Visualization

Reflection

Improvement
